Pell Grant Data Requests

Data Requests are sent by schools to request information files. These files are the Multiple Reporting Record, Statement of Account, Year-to-Date, Reconciliation File, and Verification Status.

Business Rules:

- Pell Data Requests are sent as fixed-length, flat files and not as XML documents.
- Pell Data Requests are sent to the COD system via SAIG batch with message class PGRQ05IN or via the COD web site.
- After the Data Request is received and processed, a Data Request Acknowledgement record is sent back to the institution for each data request received.

Multiple Reporting Record (MRR)

The Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of the scheduled Pell Grant award disbursed. The MRR identifies two primary types of multiple reporting conditions: concurrent enrollment and potential overaward situations.

Business Rules:

1. An MRR can be COD system generated or may be requested by the school via batch data request, or via the COD web site.
2. The MRR is provided in fixed-length, flat file format.
3. The MRR is sent from the COD System using message class PGMR05OP.

School Account Statement (SAS)

The School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes the school's processing activity for each month. This report is designed to assist in a school's monthly reconciliation, and should be compared to both financial aid and business office records.

Sections of the SAS:

Cash Summary - This section of the SAS provides the Department's official Ending Cash Balance for the school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed at COD for that program year. This section can be compared to summary information on the school's internal systems. The comparison may then identify areas where further research is needed. For example, if the school determines their internal systems match the SAS Cash Summary information for Net Drawdowns/Payments but not for Total Net Booked or Total Net Unbooked, the school can target further research to loan detail only.

Disbursement Summary by Loan Type - This section of the SAS provides monthly and year-to-date summary information by loan type for the reported period. It can be used to monitor loan volumes at the summary level (both booked and unbooked) for all loan types processed at COD.

Cash Detail - This section of the SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, pushed funds, or refunds of cash. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. This section will not include any cash transactions requested or sent during the month, but not processed on COD until after the last day of that month. If the Year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the report.

Loan Detail, Loan Level - This section of the SAS provides loan-level detail for disbursement transactions processed on COD through the end date of the report. Each transaction lists the total amount disbursed on that loan as of the end date of the report. This information can be used to perform an award-level comparison to your internal systems. This section is only available as year-to-date.

Loan Detail, Disbursement Activity Level - This section of the SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. This section may have multiple transactions per award id (as applicable). This section is available as monthly, year-to-date, or both. The monthly version will only show disbursements booked on COD during the reported month, but will include all unbooked disbursements (unbooked transactions are

always year-to-date). The year-to-date version of the report will show all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date.

Business Rules:

1. The COD System generates the School Account Statement (SAS) on a monthly basis and automatically sends it to the school's SAIG mailbox.
2. Once a school has completed the closeout process for a specific program year, a school will no longer receive a SAS for that year.
3. The SAS is generated on the first weekend of the month and includes all data through the last day of the previous month. For example, the October SAS report, containing all data through October 31, will be run the first weekend of November.
4. Schools have the option to customize the SAS in a number of ways on the COD web site.
 - a. The following options can be set for the SAS on the SAS Options page on the COD web site (Note: Each option is described in detail below):
 - i. Report Format
 - ii. Include Names of Borrowers

 - b. Schools may set or change their options at any time.

 - i. Yes
 - ii. No (**Default**)

30-Day Warning Report

The 30-Day Warning Report lists unbooked loans for which the COD System has not received the required elements for “booking” a loan within 120 calendar days prior to the anticipated disbursement date or 30 calendar days after the anticipated disbursement date. The items needed to book a Direct Loan are included in the Business Rules. These items must be submitted to the Department within 30 days of the initial actual disbursement date. Any missing items will result in the loan remaining unbooked, which may be in violation of this 30-day reporting requirement.

This report can be used to identify information the school needs to research and submit to COD in order to book the loan in a timely manner. This information is necessary for liability for the loan to be transferred to the Department, and for the borrower to receive appropriate notification from Direct Loan Servicing regarding the status and repayment conditions of the loan.

This report cannot be used to identify any further missing disbursement or adjustment information for the loans following the initial disbursement.

Business Rules:

1. The 30-Day Warning report displays the missing components that are necessary for the loan to book. The necessary items for a loan to be booked are:
 - a. Accepted award/origination record
 - b. Accepted MPN
 - c. Accepted first disbursement record
 - d. Accepted credit decision (for PLUS only)
2. Loans with Award Amounts = \$0 do not display on this report.
3. Loans that display on this report without a promissory note accepted and an actual disbursement are removed from the report after 90 days.
4. The 30-Day Warning Report is automatically sent to the school’s SAIG mailbox on a monthly basis.
5. The 30-Day Warning Report is available via SAIG mailbox in the following formats:
 - a. Comma-Delimited (message class DIWC05OP)

- b. Pipe-Delimited (message class DIWC05OP)
 - c. Preformatted Text file (message class DIWR05OP)
 - d. The default format is Preformatted Text file. Schools may change their default options on the COD web site.
6. The 30-Day Warning Report is available via the COD web site in the following formats:
- a. PDF
 - b. Comma-Delimited
 - c. The 30-Day Warning Report available on the COD web site is the report most recently generated by COD.
7. For 2003-2004 and forward, the Batch ID under the section entitled “Pnotes Without Origination Records” is removed from the preformatted 30-Day Warning Report (DIWR05OP).
8. For 2003-2004 and forward, the Batch ID is replaced with filler in the delimited versions of the 30-day Warning Report (DIWC05OP).
9. For 2003-2004 and forward, the Loan ID header is replaced with the MPN ID.

The Duplicate Student Borrower Report lists student borrowers for which COD has accepted multiple Direct Subsidized and/or Unsubsidized common records. The list indicates other schools that have submitted a common record for the same borrower who may be attending your school. This report assists in identifying subsequent loan origination records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity (including FFEL) for a student through the Financial Aid Transcript and NSLDS processes.

The SSN/Name/Date of Birth Change Report shows SSN, Name and Date of Birth changes that are initiated by any school and SSN changes that are initiated by Direct Loan Servicing. This report can be used to identify changes to award identifier information submitted by schools that may result in future rejected records which contain outdated information.

Business Rules:

1. The SSN/Name/Date of Birth Change Report is automatically sent to the school's SAIG mailbox on a weekly basis, when a change is initiated.
2. The SSN/Name/Date of Birth Change Report is available via SAIG in the following formats:
